| 1           | **Adolescent with Deforming Facial Swelling and Fatal Course**                                                                        | Nick Celano, MD – Rady Children's Hospital/University of California, San Diego  
Anne Zhuang, MD – University of California, San Diego  
Tanya Greywal, BA – Rady Children's Hospital/University of California, San Diego  
Audrey Wang, MD – Rady Children's Hospital/University of California, San Diego  
Silke Heinisch, MD – Rady Children's Hospital/University of California, San Diego  
Wynnis Tom, MD – Rady Children's Hospital/University of California, San Diego |
| 2           | **Atypical mycobacterium infection in three sisters**                                                                                  | Leah Lalor, MD – University of Cincinnati Department of Dermatology and Cincinnati Children’s Hospital, Cincinnati Ohio  
Jessica Hata, MD – Division of Pathology, Cincinnati Children’s Hospital  
David Haslam, MD – Division of Infectious Diseases Cincinnati Children’s Hospital  
Rebeccah Brown, MD – Department of Pediatric Surgery Cincinnati Children’s Hospital  
Anne W Lucky, MD – Divisions of General and Community Pediatrics and Pediatric Dermatology, Cincinnati Children’s Hospital |
| 3           | **CDSN Mutation in Siblings with Inflammatory Peeling Skin Syndrome with Systemic Manifestations**                                    | Nicole A. Weitz, MD – Department of Dermatology, Columbia University Medical Center, New York, NY  
John T. O’Malley, MD, PhD – Department Of Dermatology, Brigham and Women's Hospital and Harvard Medical School, Boston, MA  
Jackleen S. Marji – Department of Dermatology, Columbia University Medical Center, New York, NY  
Lynn Boyden, PhD – Department of Genetics, Yale University, New Haven, CT  
Lauren E. Geller, MD – Department of Dermatology, Icahn School of Medicine at Mount Sinai, New York, NY  
Mary K. Spraker, MD – Emory University School of Medicine, Atlanta, GA  
Christine T. Lauren, MD – Departments of Dermatology and Pediatrics, Columbia University Medical Center, New York, NY  
Maria C. Garzon, MD – Departments of Dermatology and Pediatrics, Columbia University Medical Center, New York, NY  
Keith Choate, MD, PhD – Departments of Dermatology, Genetics and Pathology, Yale University, New Haven, CT  
Kimberly D. Morel, MD – Departments of Dermatology and Pediatrics, Columbia University Medical Center, New York, NY |
| 4           | **Bilateral Blastomycosis-like Pyoderma Exacerbated by DKA**                                                                          | Kyle Cheng, MD – Georgetown University/Washington Hospital Center  
Arash Radfar, MD Ph.D – Washington Hospital Center  
Lisa Keller, BS – Georgetown University  
Kalyani Marathe – Attending physician, Children's National Health System, Clinical Assistant professor, George Washington School of Medicine and Health Sciences |
5  Febrile ulceronecrotic Mucha-Habermann disease in a patient with T-cell ALL  
Lauren A.V. Orenstein, MD – Department of Dermatology, The University of Pennsylvania, Philadelphia, PA  
Carrie C. Coughlin, MD – The Children’s Hospital of Philadelphia, Philadelphia, PA  
Markus D. Boos, MD, PhD – The Children’s Hospital of Philadelphia, Philadelphia, PA  
Vinodh Pillai, MD, PhD – Department of Pathology, The Children’s Hospital of Philadelphia, Philadelphia, PA  
Patrick J. McMahon, MD – Section of Pediatric Dermatology, The Children’s Hospital of Philadelphia, Philadelphia, PA; Department of Pediatrics, University of Pennsylvania Perelman School of Medicine, Philadelphia, PA  
David T. Teachey, MD – Division of Oncology, The Children’s Hospital of Philadelphia, Philadelphia, PA; Department of Pediatrics, University of Pennsylvania Perelman School of Medicine, Philadelphia, PA  
Steven L. Halpern, MD – Department of Pediatric Hematology and Oncology, Atlantic Health System, Morristown, NJ  
James R. Treat, MD – Section of Pediatric Dermatology, The Children’s Hospital of Philadelphia, Philadelphia, PA; Department of Pediatrics, University of Pennsylvania Perelman School of Medicine, Philadelphia, PA

6  Psoriasiform necrotic circinate plaques, dysmorphia and mid-line defects  
Guadalupe Maldonado-Colín MD – National Institute of Pediatrics  
Gretty Lucelly Peña-Castro MD – Hospital Infantil de México Federico Gómez  
Carola Duran-Mckinster MD – National Institute of Pediatrics  
Adriana Maria Valencia-Herrera MD – Hospital Infantil de México Federico Gómez  
Mirna Toledo -Bahena – Hospital Infantil de México Federico Gómez  
Sonia Toussaint-Caire – General Hospital Dr. Manuel Gea González  
Maria Teresa García-Romero – National Institute of Pediatrics

7  Proliferative Nodule Absent Underlying Congenital Melanocytic Nevus: An Unusual Neonatal Neoplasm  
Joseph Scherman, MD – University of Minnesota  
Dan Miller, MD – University of Minnesota  
Andrew Larson, DO – University of Minnesota  
Eugene Dulaney, MD – University of Minnesota  
Sheilagh Maguiness, MD – University of Minnesota

8  Annular Lipoatrophy of the Ankles  
Keith Morley, MD – Harvard Combined Dermatology Program  
Vinod Nambudiri, MD, MBA – Harvard Combined Dermatology Program  
Natalie Wright, MD – Brigham & Women’s Department of Dermatology  
Fatma Dedeoglu, MD – Boston Children’s Hospital, Department of Rheumatology  
Ruth Ann Vleugels, MD, MPH – Brigham & Women’s Department of Dermatology  
Birgitta Schmidt, MD – Boston Children’s Hospital, Department of Dermatopathology

9  Menkes disease presenting as possible child abuse  
Jillian Rork, MD, Karen Wiss, MD, Leah Belazarian, MD – University of Massachusetts Medical School
10  **Blood, Tears, But No Sweat: An Extraordinary Case of Hematohidrosis**  
Amy Thorne, DO – University of New Mexico School of Medicine  
Danielle Hawkins, MD – University of New Mexico School of Medicine  
Hillary Elwood, MD – University of New Mexico School of Medicine  
Aimee Smidt, MD – University of New Mexico School of Medicine  
Barrett Zlotoff, MD – University of New Mexico School of Medicine

11  **Topical imiquimod for the treatment of childhood cutaneous Langerhans cell histiocytosis**  
Kristen Hook, MD – University of Minnesota Departments of Dermatology & Pediatrics  
Erin Dodd, BA – University of Minnesota Medical School

12  **Self-Healing Juvenile Cutaneous Mucinosis**  
Jolene Jewell, MD – Duke University Medical Center  
Neil Prose, MD – Duke University Medical Center

13  **A Case of Gorham Disease in a Child First Presenting with Cutaneous Manifestations**  
Meagan Keefe – University of Texas Health Science Center at San Antonio School of Medicine  
Jaime Estrada, M.D. – Pediatric Specialists of Texas  
Mark Matthews, M.D. – Pathology Reference Lab  
John Browning, M.D. – Baylor College of Medicine

14  **Paraneoplastic scleroderma in a 12 year old boy**  
Don McConnell, MD – Phoenix Children’s Hospital, Dermatology Department  
Marcia Hogeling, MD – Phoenix Children’s Hospital, Dermatology Department  
Vanessa Gildenstern, MD – Phoenix Children’s Hospital, Dermatology Department  
Elisa Wershba, MD – Phoenix Children’s Hospital, Rheumatology Department  
Jeffrey Jacobsen, MD – Phoenix Children’s Hospital, Pathology Department  
Karen Warschaw, MD – Arizona Dermatopathology  
Masayo Watanabe, MD – Phoenix Children’s Hospital, Hematology/Oncology Department  
Harper N. Price, MD – Phoenix Children’s Hospital, Dermatology Department

15  **Chronic Urticaria, Papilledema and Sensorineural Hearing Loss in a 12-year-old Boy**  
Omar Badri MD – Harvard Combined Dermatology Residency Training Program  
Hillary Tsibris, MD – Harvard Combined Dermatology Residency Training Program  
Ersa Ozcan, MD – Boston Children’s Hospital  
Mindy Lo, MD PhD – Boston Children’s Hospital  
Jennifer Huang, MD – Boston Children’s Hospital
A point mutation in PDGFRB causes autosomal dominant Penttinen syndrome
Virginia P Sybert MD – Division of Medical Genetics, University of Washington School of Medicine and Group Health Cooperative, Seattle, WA, USA
Jennifer J. Johnston, PhD – Medical Genomics and Metabolic Genetics Branch, National Human Genome Research Institute, National Institutes of Health, Bethesda, MD, USA
Julie Sapp, ScM, CGC – Medical Genomics and Metabolic Genetics Branch, National Human Genome Research Institute, National Institutes of Health, Bethesda, MD, USA
Molly Crenshaw, BS – Medical Genomics and Metabolic Genetics Branch, National Human Genome Research Institute, National Institutes of Health, Bethesda, MD, USA
Leslie Biesecker, MD – Medical Genomics and Metabolic Genetics Branch, National Human Genome Research Institute, National Institutes of Health, Bethesda, MD, USA
Kim Keppler-Noreuil, MD – Medical Genomics and Metabolic Genetics Branch, National Human Genome Research Institute, National Institutes of Health, Bethesda, MD, USA
Monica Y. Sanchez-Contreras, MD. MSc. PhD – Department of Neuroscience, Mayo Clinic, Jacksonville, FL USA
Professor Valerie Cormier-Daire – INSERM, Département de génétique, Université Paris Descartes Sorbonne Paris Cité, Institut Imagine, Hôpital Necker-Enfants Malades, Assistance Publique-Hôpitaux de Paris, Paris, France
Rosa Rademakers, PhD – Department of Neuroscience, Mayo Clinic, Jacksonville, FL USA

Systemic Non-Langerhans Cell Histiocytosis Progressing to Hemophagocytic Lymphohistiocytosis with Novel Genetic Mutation
Gillian M Heinecke, MD – Stanford University School of Medicine
Maria E Miyar, MD – Stanford University School of Medicine
Joyce M Teng, MD – Stanford University School of Medicine

Congenital Erosive and Vesicular Dermatosis: Putting the Pieces Together
Cheryl B. Bayart, MD – Cleveland Clinic Foundation
Joan E. Tamburro, DO – Cleveland Clinic Foundation
Douglass W. Kress, MD – University of Pittsburgh
Amy S. Paller, MD – Northwestern University
Keith A. Choate, MD, PhD – Yale University

Allergic Contact Dermatitis to Methylisothiazolinone in a Young Girl's Laundry Detergent
Colleen H. Cotton, M.D. – University of California, San Diego; Rady Children's Hospital - San Diego
Catalina Matiz – University of California, San Diego; Rady Children's Hospital - San Diego

It’s not all about Ras: PTEN hamartoma tumor syndrome presenting as linear nevus sebaceus syndrome in a newborn
Annie R. Wang, MD – Department of Dermatology, Brown University/RI Hospital, Providence, RI
Lauren Massingham, MD – Department of Genetics/Pediatrics, Brown University/Hasbro Children's Hospital, Providence, RI
Lionel Bercovitch, MD – Department of Dermatology, Brown University/RI Hospital, Providence, RI
